

# HVAC (AIR CONDITIONING /HEATING)

A STEDY Certificate Program

## PROGRAM DESCRIPTION

The HVAC program provides students with the essential skills required for entry-level employees in the A/C and refrigeration industry. Training in various aspects of A/C and Refrigeration include trouble-shooting, maintenance, repair and servicing of A/C units, related electrical controlling devices, motors and safety factors concerning the use of various refrigerants.

### JOB OUTLOOK

Employment of heating, A/C, and refrigeration mechanics and installers is projected to grow 14 percent from 2014 to 2024, faster than the average for all occupations. Candidates familiar with computers and electronics and those with good troubleshooting skills will have the best job opportunities as employers continue to have difficulty finding qualified technicians to work on complex new systems.

| Technician | Diagnostics | Repair |
