STEDY Externship Program Information

Program Description: The CTE Industry Externship Program provides teachers the opportunity to update their knowledge and skills and receive updated training in CTE program related industries. The externship also enables teachers to experience work-based learning in much the same way as their students.

Externship: A customized experience whereby applicants will receive current information about a business or industry by working and training on the job at the business or industry of the externs' choice. Time will be spent pursuing either a scaled down version of a worker's duties or performing actual tasks connected with a specific position. The activities are planned to accomplish applicants' predetermined goals and to provide information relevant to a business or industry. Stipends are available at a rate of \$500 minimum for 40 hours or \$1,000 maximum for 80 hours. Funding is provided by STEDY.

Eligibility: This program is available for high school CTE teachers instructing CTE programs within the STEDY member districts for at least one year.

Site Selection: Applicants are responsible for identifying their own business partners for their externship. STEDY can suggest sites to help the applicant identify a location.

Lodging and Transportation: Any expenses incurred for lodging, meals, and transportation will be the responsibility of the program participants.

If you are interested in participating in STEDY's Externship Program, get started by filling out the educator's packet. For any questions contact Superintendent,
