

CODING

A STEDY Certificate Program

PROGRAM DESCRIPTION

This program will prepare students to pursue a career in software development. Students will learn how to write programs and work with a variety of computer languages. Students will also test codes that allow computer applications and software programs to function properly.

JOB OUTLOOK

Employment of software developers is projected to grow 17 percent from 2014 to 2024, much faster than the average for all occupations. The main reason for the rapid growth is a large increase in the demand for computer software.

| Programming | Software | Applications |
